

Kelli Ali, Sunlight In The Rain

Raindrops are fallin'
But I don't mind
No need to call me
I'll be there on time
Every step brings me closer to you

Senses excited
The night is still young
My heart is delighted
The tip of my tongue
Tastes the melody of bubbles in champagne

'Cos when I see you sunlight in the rain
And when I feel you sunlight in the rain

Feels like a rainbow
Over my heart
Baby when you show
A symphony starts to
Play inside
I'm so glad you came

'Cos when I see you sunlight in the rain
And when I feel you sunlight in the rain
'Cos when I see you sunlight in the rain

Eye to eye
Adore you
And I'll show you tonight
Take me to the storm
Stay with me till dawn
With you I'm reborn

'Cos when I see you sunlight in the rain
And when I feel you sunlight in the rain
'Cos when I see you sunlight in the rain
