

Kellie Coffey, Bluer Skies

I said, maybe we'd be better off leaving this town
You said, baby, I don't know how we'd ever get out
Just get into the car and drive
We could be in a whole other world by midnight
In another state of mind

Let's leave out all plan we had for us
When we were younger
Let's run free, baby like we used to and
Take our chances under
Bluer skies, bluer skies

Kiss me and if you wanna go to heaven I will
You can tell me how you think I'm beautiful, still
Can't you feel it in the air
I just know in my heart that there's more out there
And it could be anywhere

Let's leave out all plan we had for us
When we were younger
Let's run free, baby like we used to and
Take our chances under
Bluer skies, bluer skies

Love me when the day is through
Carry me beyond the blue
Love me, love me

Let's leave out all plan we had for us
When we were younger
Let's run free, baby like we used to and
Take our chances under
Bluer skies, bluer skies
