

Kelly Clarkson, Special Love

I wish you could feel
the way I feel
this special feeling
that makes your spine curl
and it makes your heart throb
and I dont know what to do
but if i dont have you

Chorus

I dont know what to do
my heart will jump
I will feel so empty
so incomplete
i would feel what
Special Love feels like(what special love feels like)
Before i met you

I felt like a stone
on the side of a road
all cold and lonely
but then you came along and cured me
you made me feel warm

Chorus

I dont know what to do
my heart will jump
I will feel so empty
so incomplete
i would feel what
Special Love feels like(what special love feels like)

My love will help you
my love will heal you
but if you dont give love back
then I I I will BE ALONE!!!!!!!!!!

I need your love now
I need your Heart now
I need your peace now
and i need you

Chorus

I dont know what to do
my heart will jump
I will feel so empty
so incomplete
i would feel what
Special Love feels like(what special love feels like)
I love you and you will always be mine!!!!!!!!!!
