

Kelly Clarkson, What's Up Lonely (Complete)

Blue..I'm gettin' kinda close to you
Like a shadow I can't lose, Hey-ey
You've been hanging with me everyday-ay-ay
Now your getting in my way-yeahh

I know you understand me
But don't you think that maybe
It's time to move on

What's up lonely
Seems your my only friend who wants to share my pain
Tell me heartache
What's it gonna take
For you to leave me alone today

Just when I think that your gone, yeah
You're in the mirror looking back at me

So whats up lonely

Sometimes..I wish you weren't by my side
Can't you find another shoulder, Cause I
Wanna leave these broken heart behind
We're both wasting to much time

Find some-one else to rain on
I'm really gettin' tired
Of singing this sad song

What's up lonely
Seems your my only friend who wants to share my pain
Tell me heartache
What's it gonna take
For you to leave me alone today

Just when I think that your gone, yeah
You're in the mirror looking back at me

So whats up lonely
Don't wanna give you a reason
To hang around anymore
You won't be hurting my feelings
If you find another broken heart you can lean on

Gotta go, gotta move on
Gotta go, gotta move on
Just leave me alone

What's up lonely (What's up lonely heeeee-eeey)
Seems your my only friend who wants to share my pain
Tell me heartache (Tell me heartache)
What's it gonna take
For you to leave me alone today

Just when I think that your gone, yeah
You're in the mirror looking back at me

So what's up lonely

Gotta go, gotta move on
Gotta go, gotta move on yea-aah

What's up lonely
(Seems you're my only, baby yeah)
Friend that wants to share my pain
(Tell me what's it gonna take)
Tell me heartache
(Just leave me alooo-oone! hee-eeey)
What's it gonna take
What's up lonely
