

Kelly Family, Another World

Everybody thought this was
Going to be one more freakshow
Everybody thought this was going
To be one more of those jokes

Chorus:
It's another world
It's a wild world
It's another world
It's a wild world

My generation's not going to see
Year two thousand fifteen
I live out at sea to save
My life from the H.I.V.

Chorus

No one knows what's going on
Cause the world is on fire
The word is out the people are
Down and we're on the run
Is it justice from heaven,
Or sent from hell
The world is on fire babe
Something is going on
And I'm really scared

Chorus

Everybody thought this was
Going to be one more freakshow
Everybody thought this was going
To be one more of those jokes

Rub our face into the dirt
Till the fire is over
I've been to the edge and
There I stood 'n' looked down
Living in a world
We never made
But is it too late now?
Something is going on
And I'm really scared

Chorus
