

Kelly Family, I Wish The Very Best

You, you used to be
A friend, more like a brother to me
You drifted off, you drifted off and flew away
But that's ok, I'm sure we'll meet again some day
Some day

I wish the very best for you in life
I hope you're happy with your wife
I wish the very best for you in life
I hope you're happy with your wife

Forgive me now, forgive me for all the hurt I've done
Forgive them all, forgive them all the harm they've done

Brothers that didn't get along
Had sons, which friendship was so strong
It drifted off, it drifted off and flew away
A sad story doesn't have to have a sad end, until we meet again

I wish the very best.

Forgive me now

I wish the very best
