

# Kelly Family, New Morals (Human Race)

Some of our doctors I think are acting odd  
Cause cloning humans I do believe is playing God  
I can't believe what's happening with the animals  
What good is mass production if now we have mad cow disease  
Please no more, please stop all these wars

The Human race is committing suicide  
Everyone of us is playing a little part  
There's a real bad disease spreading worldwide  
If it doesn't affect you physically  
It will creep into your heart, creep into your heart

How can a state execute a person  
In the name of justice but justice isn't done with murder  
Modern society isn't based on family  
Without foundation we turn into a hopeless generation  
Please no more, please stop all these wars

The Human race is committing suicide  
Everyone of us is playing a little part  
There's a real bad disease spreading worldwide  
If it doesn't affect you physically  
It will creep into your heart, creep into your heart

Wouldn't it be nice if we would be like children  
Playing soccer all day and building crazy treehouses  
Please no more, I'm begging you to stop all these wars

The Human race is committing suicide  
Everyone of us is playing a little part  
There's a real bad disease spreading worldwide  
If it doesn't affect you physically  
It will creep into your heart, creep into your heart

The new morals nowadays  
Yeah they're pretty crazy  
I hope they will change  
Cause otherwise I'm out of here
