

# Kelly Jones, Jean

Jean take me down  
Just take me to your place  
And do what you do to me  
Take me to the place you wanna go  
Now that you've been there  
I've seen it. I've been it. I'd mean it  
I don't know where you're going

Long lost in your mind  
It's up to you  
Do what ya do to you  
You don't know what's right or in your mind  
But now it's time to find a reason to be here  
And work out the reasons before you die

Pick yourself up now and walk the road  
You don't know where you're supposed to go  
But now it's time you take a look  
I know you don't know if you  
Mean it, or seen it, to feel the reason in your mind

Pick yourself up off the dirty floor  
You've got to be there, don't you know?  
Now it's your time to open up  
And yeah, you seen me down  
I'll be there, and see ya and now you gotta open up your eyes

Now you got a reason to be here and see it before you even die  
See that reason down before you die
