Kelly Osbourne, More Than Life Itself

You never said that you were perfect But you always are to me Loving you is always worth it 'Cause you see so much in me

And when I'm down you're there to lift me You come around when I need a friend

And no one loves me like you do Unconditional and true You're the shoulder that I've always known And the hand that says I'm not alone More than myself I love you more than life itself

Did you know that I get lonely At the thought of you not being here Can you see that you're the only One who never disappears

And when I fear you are the comfort The one who steers me to the light

And no one loves me like you do Unconditional and true You're the shoulder that I've always known And the hand that says I'm not alone More than myself I love you more than life itself

I love you I love you I love you
And I don't care if it sounds trite
I'll say it over and over
It makes me feel alive
You gave me all my fire
By watching you live by what you believe
So many things you taught me
And even when you caught me
I always knew that you, you could still see
The best in me
The best in me (spoken)

No one loves me like you do
Unconditional and true
You're the shoulder that I've always known
And the hand that says I'm not alone
More than myself
I love you more than life itself (x4)
More than you know(x2)
I love you more than life itself
