

# Kelly Osbourne, On Your Own

Some people  
Think they know what I should do  
Well they don't really know  
What I've been through  
And I don't care  
Don't care what you have to say  
'Cause it's my life  
And I'll do as I may

When I find you  
I better find you alone  
When I call you  
You better pick up the phone  
When I dump you  
You're gonna be on your own

Remember  
When you gave that number to her  
Well she don't really know  
Where I have been  
And I don't care  
Don't care what you think of me  
Cause it's my life  
And I'll do as I please

When I find you  
I better find you alone  
When I call you  
You better pick up the phone  
When I dump you  
You're gonna be on your own

Picking up the trash can  
Playing your life hard  
Dealing me a sh\*t hand  
Playing with the wrong card  
Bringing on the new days  
Leaving back the old ways  
It don't matter what you have to say  
Walk on boy

When I find you  
I better find you alone  
When I call you  
You better pick up the phone  
When I dump you  
You're gonna be on your own
