Kelly Osbourne, Save Me

From the look in my eye, why didn't you just save me?
And all of my friends, Think I'm losing my mind.
I just can't believe I'm blinded by what I'd need,
It's like an empty space I need to fill the void.

When you looked in my eyes You knew I needed saving,
And when you saw me getting high Why didn't you come save me?

All of my life I've locked away my feelings,
And all of this time I've been living a lie.
I was so afraid, Pathetically misleading,
It was my empty space, I wanna kill my void.

[chorus]
When you looked in my eyes You knew I needed saving,
And when you saw me getting high Why didn't you come save me?
When I blamed you for my lies why didn't you just tell me?
Cause when I looked in my eyes, There's nothing that would save me

Someone rescued me when I was sleeping, Somehow life went by when I was dreaming,
Someone rescued me when I was sleeping, In my dreams.

Save Me, why didn't you just save me?

[chorus]

Save Me Why didn't you just save me?
Save Me Why didn't you just save me?
