

Kelly Price, It Will Rain

Something that you must know
(uh)
There's something that you must know
(I've been waiting on you)
It's something that you must know
(come on in)
It's something that you must know
(sit for awhile)
There is something that you must know
(can I talk to you)
There is something that you must know
(say what's on my mind)
Here is something that you must know
(oh, boy)
I'ma tell it(3x)
(listen to me)

Something in my soul ain't right
I can't sleep at night
Wondering when the change gone come
I'm feeling that I'm not the only one
Tell me when I turned you off
Doctor say it's not my fault
All the neighbors stop and stare
The pastor says to stay in prayer

Chorus:
It will rain

There'll pain
Troubles will come
Understand
Count it on joy
The morning will come
Sun will shine
Keep your head high

Can't believe the way you talk
Seems you wanna call it off
Friends see you treating me like dirt
What happen to better or for worst

I need answers (can you tell me)
Too much pressure (too too much to bare)
I don't understand you (oh,oh)
Too many issues (said it will)

Chorus.

Oh, I tried (tried to leave you)
But oh I (boy I love you)
I can't let go(seems I can't let go)

Oh, I don't ever wanna lose my baby
But this pain just drives me crazy
Feels like I'm going insane
But I gotta be strong
