

Kelly Rowland, Need a Reason (feat. Future & Be

We don't need a reason
Ah, ah, ah, ah, ah, ha

We don't make it . feelings that is fun
I will treat you like .. worth a thousand words
We were in the bedroom when we first began
You are in the pool, yeahm you were in the pool
I give you part of me to make you ffall
We did it in the Benz like you were never here we break it
We were in the our room we use
You are in the ? I give you .. for me to make you fall in love again
We did it in the Benz like you were never here we break all the rules
Kiss it right there right there call me baby

I love it when you are doing that thing is driving me crazy
And I am gonna pick it up pick it up in the .. on the ground
Yeah I like that sounds cause I am in need of lust
So let us make we don't need no room
So let us break up break up
We don't need no reason we don't need no place
To make my body feel like uuu uuu
All day we don't need a reason
Set the mood on fire light it up boy
I need another to fix you the drug boy
And I am gonna pick it up pick it up in the .. on the ground
Yeah I like that sounds I am gonna never say you no no no
I am gonna put down a show show show show show
Look at your star
We are gonna do it all night long

We gon? do it all night long start to finish,
and the bedroom?s only the beginning
so baby boy do it harder give it to me harder
boy love me time for us
so let us make it
we don't need no room
So let us break up break up
We don't need no reason we don't need no place
To make my body feel like uuu uuu
All day we don't need a reason
We don't need no reason

Something about the way .. going crazy crazy
I can?t believe I sent a couple kisses to your neighbor lately
Let us change tonight like .. in ages ages
This might take a minute thinking we should cancel dinner reservations
I was up in the club was looking for love when I found you
.. can?t see nobody else around you
Make me feel like I won the lotto
Once upon a quicky we don't need a reason
Don?t be afraid I like it like that
I get you right back
Slow down a little I am right there
Yes is right there stay right there
Don?t be afraid I like it like that
I get you right back
Slow down a little I am right there
Yes is right there stay right there

I am in the mood for love
so let us make it
we don't need no room
So let us break up break up
We don't need no reason we don't need no place

To make my body feel like uuu uuu
All day we don?t need a reason
We don?t need no reason
