

Kelly, What Should I Do?

He's done it again
He's walked out on me
He's left me here
What should I do?

He always does this
Doesn't think about me
Leaves me alone
What should I do?

Chorus:
Every time I let him in
Back to my life
Then he walks out again
Doesn't think twice
But I still let him back again

He chooses when
He should come back again
To be with me
What should I do?

I let him back in
So im not on my own
He walks over me
What should I do?

Chorus:
Every time I let him in
Back to my life
Then he walks out again
Doesn't think twice
But I still let him back again

Why does he come back?
Why do I let him?
So many questions
What should I do?

Chorus:
Every time I let him in
Back to my life
Then he walks out again
Doesn't think twice
But I still let him back again

Every time I let him in
Back to my life
Then he walks out again
Doesn't think twice
But I still let him back
But I still let him back
But I still let him back again
