

Kelly Willis, Easy (As Falling Apart)

(Kelly Willis)

I want my mind to pull me through
Up until now that's been hard to do
But how could I know, how could I know
It'd be easy

I want my heart to stand alone
To be the one that's made of stone
How could I know, how could I know
It'd be easy
Easy as falling apart

Woke from the sweetest dream
Brought to the floor
Robbed of the only thing
I'm living for

I want the sun to shine to shine on me
To show me the way and set me free
How could I know, how could I know
It'd be easy
Easy as falling apart

Woke from the sweetest dream
Brought to the floor
Robbed of the only thing
I'm living for

The farther I fall the more I know
That I'm gonna have to let you go
But how could I know, how could I know
That it'd be easy, easy
Easy as falling apart
