

Kelly Willis, Getting To Me

(Kelly Willis - Gary Louris)

Redemption is all I really need
Cause I've been living like a liar and a thief
They say that you spend your lifetime burning
But I spend mine just turning and turning

Chorus

And oh will it shine through
All that I've been waiting for
Living in real time
It's been getting to me
Oh will it shine through
All that I've been waiting for
Taking its sweet time
In getting to me

Love is the answer at least for some
But love is the devil when you have none
So empty your pockets and lay down your dimes
It costs what you've got and you pay every time

Chorus

So let go your mind when you're feeling it slip
And let go your heart when you're feeling it dip
Sometimes there's not much a poor soul can do
But dream of the life you've got coming to you

Chorus

Oh taking its sweet time
But getting to me
