

# Kelly Willis, One More Night

I never thought it would end this way  
We swore our love would never fade away  
Can't understand saying goodbye with a smile on your face  
When you know there's nothing can ever take love's place

Can't even seem to put up a fight  
Nothing said now is gonna make things right  
You've made up your mind come morning you'll be gone  
So let me hold you one more time all night long

Give me one more night on the loving side  
Give me one more night on the loving side with you  
[ guitar ]  
Been on the wrong side once or twice  
Been on the other side too you know what that's like  
Yeah the hardest thing I think I've ever known  
On the other side of love all alone

Give me one more night on the loving side  
Give me one more night on the loving side with you  
Give me one more night on the loving side with you  
Give me one more night on the loving side
