

Kelly Willis, Wait Until Dark

(Kelly Willis - John Leventhal)

The stars will be fading soon
We're losing our love with the moon

Kiss me and say goodbye
Before we have to lie to our hearts
Be strong until it's late
Our hearts will have to wait until dark

Remember the words that we say tonight
But don't say a word once we're in the light

We have to waste the day
We have to hide the way that we are
Tell me it's not our fate
That we will always wait until dark
We'll wait for the dark
How many hearts will break if we don't wait

Kiss me and say goodbye
Before we have to lie to our hearts
Be strong until it's late
'Cause our hearts will have to wait until dark

We'll wait until dark

We'll wait until dark
