Ken Laszlo, When I Fall In Love

When the night is falling And you want a place to go I'll be waiting for you baby But you don't knock at my door

Baby let me tell you You're my man from making love Every minute and every hour Always deep inside my soul Feeling the love

When I fall in love I can give my heart Getting close to you And all the world have seen so fine When I fall in love I can dream of you If you really wonder Get the best of you

When the night is falling I will give our love a light Every minute every hour Everyday for you and I

Now I have to tell you That you broke my heart into But you're gonna stay inside me I'll be never feeling blue Feeling the love
