

Kenna, Red Man

Noise too loud to hear
Laugh too hard to feel
When I fall asleep
I'm a puppet cutting strings

When your eyes
Open large and wide
In a different light
Eyes open for the sun
In a different time

Red Man's got you crazy sad sad
Life is not a daisy sad sad
Come on in and save me come on come on
I don't mean to bring it down
I don't mean to bring it down

Legs too weak to walk
We live to crawl
As I fall on my knees
I'm a puppet cutting strings

When your eyes
Open large and wide
In a different light
Eyes open for the sun
In a different time

Red Man's got you crazy sad sad
Life is not a daisy sad sad
Come on in and save me come on come on
I don't mean to bring it down
I don't mean to bring it down

Love lift me high
Heal me tonight
We're gonna try and make it
Love lift me high
Give me the sign
We're gonna live forever
Love lift me high
Heal me tonight, yeah
Love lift me high
Heal me tonight

Red Man's got you crazy
Life is not a daisy
Come on in and save me come on
I don't mean to bring it down
I don't mean to bring it down
