

Kenna, Siren

Yeah, woohoo oohoo
I live for my independence
Live for my belief yeah
I live with my intentions
Careful falling for me

I've come to a new conclusion
On the folly in love and youth yeah
I've made my decision
Call it policy or truth

When I say

I say young love will only break your heart,
I say nothings going to change me
woohoo oohoo come on yeah woohoo oohoo
Here she comes with hunger; here she comes with desire,
Here she comes to pull me under burning inside

Yeah I've come to a new conclusion
In the folly of love and youth,
Yeah I've made my decision
Call it policy or truth When I say

Chorus

When will the siren call?
Here she comes--paradise
when will the siren call?
Here she comes here she comes paradise

Chorus
