

Kenna, War In Me

the call, call, call on me
i suffocate in all of it
the call, call on me
its hard to breathe
i suffocate and choke on it

its bittersweet for me to know
the fever's taking over
the status of my fear soars
i'm waging a war
a war in me
the war in me is welling
i...
i still believe

to channel this
is short of bliss
to kill the cycle that i've fed
the labyrinth in me
is every sin every gain
and all the blame

its bittersweet for me to know
the fever, taking over
the status of my fear soars
i'm waging a war
a war in me
the war in me is blairing
i...
i believe
i believe
colors bleed in a war
war for me
a war for me
a war for me is blaring
and i, i, i, i, i, i can see
heaven tears for me

whoa, whoa, whoaaaaaaaaaaaaaaaa...

here its bittersweet for me to know
fever, taking over
the status of my fear soars
i'm waging a war
war in me
a war in me
a war in me is blaring
i...
i believe
i believe
(colors bleed)

there's a war
war for me
a war for me
a war for me is blaring
and i, i, i, i, i, i can see
heaven tears
ohhhhhh! its bittersweet for me to know
the fever, taking over
the status of my fear soars
in a war
a war in me
a war in me

a war in me
blaring
i...
i believe
i believe
there's a war
a war for me
a war for me
a war for me, blaring
i...
i believe
i believe
yeah
there's a war
a war in me
a war in me
is blaring
war in me
a war in me
is blaring
a war in me!
