

# Kenny, Baby I Love You Okay

Baby I love you okay  
Baby bay baby I love you okay

The music is playing they are laying it down  
And here we are grooving and moving around  
Once again you are by my side wish you knew how hard I tried  
Again and again and again and again just to say hey hey.

I can dance to the music of a rock and roll band  
I can shake it with my baby I can hold her hand  
And I know how to go when we are dancing  
I can rock it with my baby I can hold her tight  
I can really put it over I can do it alright  
But I cannot find a way to say "baby I love you"  
(baby I love you okay)

No  
I cannot find a way to say "baby I love you";

But I get my chance when the dancing is through  
And we are on our own all alone me and you  
Baby I love you okay wish I had the nerve to say it  
Over and over and over and over again-again-again.

I can dance to the music of a rock and roll band
