

# Kenny Chesney, Don't Happen Twice

I haven't seen you in forever  
Oh you haven't changed a bit  
You didn't think that I would remember  
How could I forget

We sang Bobby McGhee on the hood of my car  
Made a wish on every star  
In that clear September sky  
One bottle of wine and two Dixie cups  
3 am I fell in love  
For the first time in my life  
Oh that's something that just don't happen twice

To this day I still taste that first kiss  
How I prayed it wouldn't end  
In a way, seeing you like this  
I guess it never really did

We sang Bobby McGhee on the hood of my car  
Made a wish on every star  
In that clear september sky  
One bottle of wine and two Dixie cups  
3 am I fell in love  
For the first time in my life  
That's something that just don't happen twice

One bottle of wine and two Dixie cups  
3 am I fell in love  
For the first time in my life  
Oh that's something, baby that's something  
Oh that's something  
That just don't happen twice

Oh yeah

We sang Bobby McGhee on the hood of my car  
Made a wish on every star  
One bottle of wine and two Dixie cups  
Yeah we fell in love
