

Kenny Chesney, Fall In Love (Remix)

a little country church
on a two lane road
a bride and a groom coming out the door
a white laced dress and a red bouquet
just married written on a blue cheverlote
dont that make u want to fall in love
dont that look like a picture of us
a match made in heaven if there ever was
dont that make you want to fall in love
that just makes me want to give you my heart
ever forever needs a place to start
gotta be a sign from up above
dont that make you want to fall in love
ol' folks sittin in a frong porch swing
still holdin hands
like they were 16
50 good years they're a lovers dream
darlin that could be you and me
dont that make you want to fall in love
dont that look like a picture of us
a match made in heaven
if there ever was
dont that make you want to fall
that just makes me want to give you my heart
ever forever needs a place to start
gotta be a sign from up above
dont that make you wanna fall in love
well now dont that make you want to fall in love
