

Kenny Chesney, Scare Me

I'm not afraid of lonely
I've gotten good at being that
ain't seen nothin' that could hold me
say good-bye and don't look back

running, always ready
feel as strong and steady
but you scare me

took a long walk after midnight
trying to make sense of it all
tried to catch a glimpse of my old life
but your face was all i saw

blue eyes staring through me
baby, what are you doing to me
you (never felt this before, it's all brand new to me, never known anyone) scare me
you (i'm doing what i said i would never do, too late to stop it now) scare me

knowing there's no turning back
knowing I don't want to

baby you (never felt this before, it's all brand new to me, never known anyone) scare me
you (i'm doing what i said i would never do, too late to stop it now) scare me
scare me
scare me
baby you scare me
scare me
