

Kenny Lattimore, I Won't Let You Down

Chorus:

I won't let you down

Dont worry bout me leavin

I'll be around

So good, so right, everyday, every night

Hey, girl with the sad eyes

I want to kiss the pain away

Just wanna hold you long enough to know that

You dont have to feel that way

I know somebody hurt you

I will never make you cry

All I have is love inside

Give me your broken heart and I'll put all your fears aside

Chorus

I know it aint easy baby

Letting your guard down again

You dont have to tell me

I understand

You dont have to pay for

All the tings he put you through

Now that you have me in your life

No more sad and lonely

Now that youre not the only one its you

And I

Chorus

You know that I won't go

I'll be around

Baby dont you know you dont have to worry

Cause you know I won't go

You dont have to worry

Chorus
