

# Kenny Price, Love's Not Hard To Take

Raised up by some folks I never got to know  
They offered me a thing called love I took mine to go  
I guess they always knew I'd leave I was a mistake  
And it don't take long to find out love's not hard to take  
Love's not hard to take if you can take it  
Be easy with love and don't try to take it too far  
And don't take love so far you can't return it  
Just know what you can take and who you are  
[ dobro ]  
I took her love I guess for granted she took mine for what it was worth  
She soon found out that thought I had was worthless  
But sometimes heaven's not that far from earth  
Love's not hard to take...
