

# Kenny Price, River Town

River Town River Town I can't settle down long as my woman's on the prow  
They're peepin' out from behind shades the lovin' how my woman's made  
I've got to get her out of this River Town

She caught the eye of another man in this River Town  
Cause the fever in the man made his blood run hot in this River Town  
Made him crave her like so many river men have done  
And I can't stand the way he looks at her that son of a gun  
River Town River Town...

Makin' a livin' ain't an easy thing in this River Town  
Well I'm breakin' my back and ruinin' my hands in this River Town  
But I love that woman and there ain't another man gonna take her and run around  
If he passes another remark at her I'll cut him down  
River Town River Town...
