

Kenny Price, Say Something Nice To Me

Go on and leave if it's over and you no longer care for me
But before you leave would you please say something nice to me
Tell me a lie if you want to say you're sorry and don't be
But darling please before you leave say something nice to me

I know you've made up your mind and there's someone waiting for you
I'll never stand in your way but there's one thing that I'd like you to do
Tell me a lie if you want to...
Say something nice to me
