

Kenny Price, You Can't Take It With You

You can take the lips that once kissed me
And the good times that we will never know
But I'll keep the love I feel for you forever
And you can't take it with you when you go
The time you spend with me brought you sadness
As I watched your need to leave begin to grow
So I took your every look and made myself a mem'ry
And you can't take it with you when you go
When you leave my life won't be empty oh no
Cause your leavin's more than you know
I'll have the song you taught my lonely heart to sing
And you can't take it with you when you go
No you can't take it with you when you go
