

Kenny Rogers, Call Me Up (The Phone Is in the C

Call me up.

My friends they don't talk much bout the legend
My friends they don't talk much anyway
When they do, I know I better listen,
cos my good friends just naturally know
the right things to say, they say:

Call me up the phone is in the cradle,
get yourself a liver to my door,
but if you saw any plan and if you got the time,
we could talk the night away.

I don't got so lonely and I've gotta
He said: it's tough to be the only man alive,
he said: I'd give a river for just somebody to talk to
We're thinking in lighting out for biting,
we came strolling by, she said:

Call me up the phone ...

Now Rosy was a queen of the all night cowboy,
she said: Texas boy using kind of shy
Don't you expect the nimble's invitation,
just knock on the wall
Track down the hall and drop on by, she said:

Call me up ...
