

Kenny Rogers, Just Remember You're My Sunshine

(Writer Mike Settle)

Just remember you're my sunshine
When I'm with you I don't feel any pain
Just remember that I love you
Even if I cannot be your man.

I'm not leaving you forever
But I got business farther down the line
You got your troubles
Baby, I got mine.

Hold on, everything will be alright
Hold on, I got to have a little more time
Hold on and together we will find
All the answers, all we need is time now.

Just remember that I love you
When you got no one to hold your hand
Yes you know I'll be back home
Just as soon, just as soon as I can.

Hold on, everything will be alright
Hold on, I got to have a little more time
Hold on and together we will find
All the answers, all we need is time now...
