Kenny Rogers, My World Begins and Ends With

MY WORLD BEGINS AND ENDS WITH YOU Writers Larry Keith, Steve Pippin Copyright 1974

My world was no more than a dream And waitin' on a dream can sure get lonely Your love just fell right into place And filled and empty space to overflowing, overflowing My world begins with havin' a friend when I'm feeling blue My world would end if ever I heard you say we were through Just don't know what I'd do Cause my world begins and ends with you Sometimes I tell little lies to see if your eyes are looking through me But you know lying's not my style I just need your smile coming to me Reassuring me My world begins with havin' a friend when I'm feeling blue My world would end if ever I heard you say we were through Just don't know what I'd do Cause my world begins and ends with you
