

# Kenny Rogers, Puttin

If they call me for me and wonder where I am  
Just tell them I'm not feeling good today  
If they don't believe you, I don't give a damn  
Because i just might pick up the phone and said:

I'm just putting in a little bit of over time at home  
Ill be putting in a little bit of over time at home  
If there is anything on earth I feel for me to do  
Its stay at home from work today and play a while with you  
Today just let the world leave us alone  
Because I'm putting in a little bit of over time at home

Every day they get ten hours of my time  
And I bring home to you what's left of me  
With an akin body and a weary mind  
But today that ain't no way is gonna do

Because just putting in a little bit of over time at home  
Ill be putting in a little bit of over time at home  
If there is anything on earth I feel for me to do  
Its stay at home from work today and play a while with you  
Today just let the world leave us alone
