

# Kenny Rogers, You Gotta Be Tired

As a child, mama told me all about You  
And all the things You've done  
I wondered all these years how You kept goin'  
And had the strength to carry on  
She said You'd always be beside me  
To help me up if I should fall  
If I get lost You'll always find me  
And all I have to do is call

When Moses cried for help to free his people  
You opened up the mighty sea  
When David said, 'He sure looks big, Lord!', You said,  
'Here's a stone and you've got Me!'  
And when Daniel said, 'The lions are gonna get me Lord!' You said,  
'Get down, get down on your knees.'  
And in six short days You made the world we live in,  
And still You find the time for me.

Oh, You stayed up forty days and forty nights  
Makin' all that rain  
And when You see us messin' up this world You love so much  
That's gotta bring pain  
If I was big enough, and strong enough to help you, Lord, I would  
But I can't  
You gotta be tired, Lord  
You gotta be tired
