

Kenny Wayne Shepherd Band, Live On

Hello my friend
Can't sleep again
Got too much on my mind
It's half past three
You're calling me
Just to make everything all right

Can't see the light
Heat of the night
Tired of feeling so wrong
Well, I've been there
And it's not fair
But you've just got to live
Live on
Yea, you've got to live on

Another day
Well, your luck is bound to change
Oh yea, it might be cold out
But you just hold out
The sun is going to shine your way

I know it's true
I'm living proof
This road is hard and long
If I could find a way
Then I would take your place
But you've just got to live on
Live on
Live on
Live on

You've got to live on
Another day
Yeah, your luck is bound to change
It might be cold out
But you just hold out
The sun is gonna shine your way

I know it's true
I'm living proof
This road is hard and long
If I could find a way
I'd take your place
But you've just got to live
Live on
Live on
You've got to live on
Oh, live on
