

Kenny Wayne Shepherd Band, Where Was I?

Staring out the window
Watching the night turn into day
It's four in the morning
I've got so many things that I need to say

I've been out here in the darkness
With shadows all around
Where was I before you came around?

Standing in a phone booth
Lord, I watching the rain fall down
Don't know where I'm going
Don't even know the name of this town (of this town)
I've been stranded in this spotlight
Like a king without a crown
Where was I before you came around?

I was lonely
I was on my own
I was drifting
No place to call home
Now I'm stronger
Where would I be without you loving me?

I was lonely
On my own
I was drifting
No place to call home
Now I'm stronger
Where would I be without you loving me?

Oh, staring out the window
I heard you say it's gonna be all right (all right)
With these words from you girl
I can make it through another night
You give me someone to believe in
I was lost
But now I'm found
Where was I before you came around?

You give me someone to believe in
I was lost
Now I'm found
Where was I before you came around?
