

Kenny Wayne Shepherd, Be Mine

The ladys eyes are blue and red
When she walks by everybody turns their head
Dressed in colors, natures queen
The sweetest thing you ever did see

Chorus:

Theres a light in the sky
Says youre gonna be mine
Yes I knew all the time
You were gonna be mine

Now I want to know about pleasure and pain
Once you get in you aint never the same
And whos to blame if you get hurt
Got nothing to lose if it never was yours

Chorus

Singing La La La

Dont give up it aint your scene
Open your eyes and hear the scream
A couple of words is all you need
Before you know it youll plant your seed
Whats your will
And will you get your fill

Chorus
