

# Kenny Wayne Shepherd, Live On

Hello my friend  
Can't sleep again  
Got too much on my mind  
It's half past 3  
You're calling me  
Just to make everything alright  
Can't see the light  
Heat of the night  
Tired of feeling so wrong  
Well, I've been there  
And it's not fair  
But you just gotta live...live on  
Yeah, you gotta live on  
Another day  
Well, your luck is bound to change  
It might be cold out  
But you just hold out  
The sun is gonna shine your way  
I know it's true  
I'm living proof

The road is hand and long  
If I could find a way  
I'd take your place  
But, you just gotta live on  
Oh, live on  
You gotta live on  
Oh, another day  
Yeah, your luck is bound to change  
It might be cold out  
But you just hold out  
The sun is gonna shine your way  
I know it's true  
I'm living proof  
The road is hand and long  
If I could find a way  
I'd take your place  
But, you just gotta live on  
Oh, live on...yeah, you gotta live on  
Oh...live on
