

Kenny Wayne Shepherd, Where Was I?

Staring out the window
Watching the night turn into day
It's 4 in the morning
I've got so many things to say
I've been out here in the darkness
With shadows all around
Where was I before you came around
Standing in a phone booth
Lord I'm watching the rain fall down
Don't know where I'm going
Don't even know the name of this town
I've been stranded in the spotlight
Like a king without a crown
Where was I before you came around
I was lonely, I was on my own
I was drifting, no place to call home
Now I'm stronger

Where would I be
Without you lovin' me
I was lonely, on my own
I was drifting, no place to call home
Now I am stronger, where would I be
Without you lovin' me
Oh, staring out the window
I've heard you say it's gonna be alright
These words from you girl
I can make it through another night
I need someone to believe in
I was lost I was found
You give me someone to believe in
Where was I before you came around
You give me someone to believe in
Where was I before you came around
