

# Kenny Wayne Shepherd, Wild Love

Lightning in a bottle  
Held it in my hand  
Pushing down the throttle  
I drink and try again  
Baby I'm addicted  
I just can't get enough  
Build a wall around me  
I will rise above  
No one makes me feel the way  
Feel the way you do  
No one else could make me say  
Say these things to you  
I feel something kind of dangerous  
I wish I knew what it was  
Babe let's get together  
Get together for some  
Wild love  
Going off the deep end  
You got me hypnotized  
First you took my sanity  
Now you want my pride  
Girl I want to see you  
See you in the flesh  
I'm out here on a wire  
And they're cutting down the nets  
No one makes me feel the way

Feel the way you do  
No one else could make me say  
Say these things to you  
I feel something kind of dangerous  
I wish I knew what it was  
Babe let's get together  
Get together for some  
Wild love  
Oh, I said it don't take long  
But I just can't wait  
Until the feelings gone  
Oh...yeah  
I don't mean to scare you baby  
Or try to push you away  
Something's got a hold on me  
And it's going all the way  
No one makes me feel the way  
Feel the way you do  
No one else could make me say  
Say these things to you  
I feel something kind of dangerous  
I wish I knew what it was  
Babe let's get together  
Get together for some  
Wild love
