

Kenziner, Future Signs

We see the future signs...

[1]

We've seen a thousand winters And we never felt the cold
We've swam a thousand rivers Through our minds and our souls
We've never known the answers We were really never told
We've made the many journeys Maybe now we will know

[2]

It's all about us now We see the future signs
It's really oh so clear We seen the future signs
The road is before us We see the the future
We shall be again We see the future signs

[repeat 2]

[3]

We've only touched the surface Of what will really be
10.000 years of practice To retrieve true harmony
But now we've seen tomorrow Through the words of prophecy
Our home is on the horizon It's time now to believe

We see the future signs...
