

# Keren Ann, Where No Endings End

Send me off shore  
It's a cold blooded war  
I can't win  
I give in  
I give in

In the field of my fight  
We can wonder all night  
Why we have  
All this love  
All this love

You and I, we were drawn  
In the break of the dawn  
With the boreal wind  
But we can't change the world  
No we can't change the world□□□□  
It's been done  
by someone  
long ago

Send me off shore  
There's a bright semaphore  
Calling in  
Every wind  
Every wind

In the loop of my game  
There's a whole life to blame  
It's been done  
But we won  
what we won

You and I, we both run  
with a unloaded gun  
For the same piece of land  
Where no endings end  
But we can't change the world  
No we can't change the world  
It's been done  
by someone  
long ago

Send me off shore  
She's a cold blooded war  
I can't win  
I give in  
I give in
