

Keri Hilson ft. Nayo, Ready To Fall

i cant stop my hands from tuching you
i cant stop my lips from kissin you
i cant stop my arms from holding you
i cant stop my body from needing you
baby just take it all, oo baby just take it all
im ready to fall, but what about you?
i cant stop my eyes from seeing you
even when your not within my view
hands upon my watch refuse to move
every moment that we share is like new
oh baby just give it all, oh baby just give it all
im ready to fall, but what about you?
and whatever the road you want me to travel
baby ill ride wherever you ride
my seatbelts on now you can go faster
i wanna go faster baby
oh just take it all
ohh baby just give it all
im ready to fall, but what about you?
pleasure and the pain is what we do
make it hurt so good just loving you
emotionally intertwined as two
gravity take us wherever aslong as we're together
baby give it all, take it as i give it all
im ready to fall, so ready, so ready baby
i cant stop my hands from touching you
i cant my lips from kissing you
i cant stop my arms from holding you
i cant stop my body from needing you
baby just take it all, oo baby just take it all
im ready to fall, but what about you?
