

# Keri Hilson, Slow dance

Come here Baby, sometimes I just wanna dance with you  
Put your arms around me boy,  
I got something to show you, tonight.  
And you know I need your attention baby.  
Aint no other girl that can rock your world like I  
So  
Rewind,  
Make this moment last forever.  
Your body is calling me.  
I dont want to come on to strong,  
But something happens when we slow dance.  
Something happens when we slow dance.  
Talking with my fingertips,  
I got so much to say babe  
Can you read between the lines?  
Rewind,  
Make this moment last forever.  
Your body is calling me  
I dont want to come on to strong,  
But something happens when we slow dance.  
Something happens when we slow dance.  
Got you in my element.  
Time to represent.  
The whole world is staring at the both of us  
And Im giving you all my love....  
I dont want to come on to strong,  
But something happens when we slow dance.  
Something happens when we slow dance.
