Keri Noble, Piece Of My Heart

Driving down the highway Saying goodybye to it all In between the blues and greens We're following the call That takes us so far away From summer's sunny days I'm missing you already I can still see your face Sitting underneath the stars With a cold beer and old friends Talking till the sun comes up And then we'd do it again Well you've become a part of me That I never wanna lose Till we come back together You know I'll be missing you. I can hear us laughing I remember every part I've got everything we ever did It's tattooed on my heart There's a cold wind coming in And blowing us apart Till the summer brings us back Know you've got a piece of my heart Watching your tailights Fading out of my sight Feeling like the sun just lost a little bit of its light. You've left your memory to linger With new memories to start Till the summer brings us back Know you've got a piece of my heart
