

# Kerli, Army Of Angels

I've been watching you silently  
Blindfold come in you violently  
Feels like you've fallen and there's  
No one out there, no one out there  
Sleep walk wander aimlessly  
Hands tied keep in your perfectly safe  
Not searching or questioning  
Follow me

An army of angels  
Will take you away  
An army of angels  
Prepare to invade  
Don't be afraid  
Your life starts today

Earthquakes endin' you quietly  
Wake up  
Turning your painlessly  
When your broken down hopelessly  
Follow me

An army of angels  
Will take you away  
An army of angels  
Prepare to invade  
Don't be afraid  
Your life starts today

You love  
You love

You cry  
But not alone

I'm here if you don't believe your eyes

When your world starts to change

It's real  
Your fly  
But not on your own

An army of angels  
Will take you away  
An army of angels  
Prepare to invade  
Don't be afraid  
Your life starts today

Will take you away

An army of angels  
Prepare to invade  
Don't be afraid  
Your life starts today
