

Kernaghan Tania, Breaking In My Heart

He was from out west cause he liked the wild best
And his women he liked them the same
He knew about trust, horses and dust
He was chasin' prize money when he came
It was hotter than ever when we got together
Through a rodeo friend of mine
There were full moons and long necks and nothing but time
And he caught me running wild one night

CHORUS

He was breaking in my heart
And I'd never been held before
In the hands of a stranger not knowing the danger
He was breaking in my heart
He stayed in town while his luck held out
And I learned about the boy in a man's shoes
They're easy to love and so eas to lose
He said I'll be back when the circuit comes through

CHORUS

In the hands of a stranger not knowing the danger
He was breaking in my heart
