

Kernaghan Tania, The Verandah

We haven't used this swinging chair in a long time
And I don't know where the days are flying to
And the evening is giving into starlight
I wanna share a little summer time with you

CHORUS

Darlin' come on out to the verandah
It's been too long since we took the time
Just to talk about your day and how we're feeling
Come on out to the verandah for a while
You know I can't recall an night so still
It's like the world has taken time to sigh
And the December Moon is glowing over purple hills
It reminds me of the love lights in your eyes

CHORUS X2

Darlin' come out to the verandah for a while
